

Davis-Fitzwater PhD Fellowship in Hydrology

University of Arizona | Department of Hydrology and Atmospheric Sciences
\$15,000 Fellowship Award for First Year of PhD Study Plus Continuing Support

Join one of the top-ranked hydrology programs in the world!

The Davis-Fitzwater PhD Fellowship supports outstanding students entering the PhD program in Hydrology and Water Resources at the University of Arizona.

Fellowship Highlights

- \$15,000 Fellowship Award in addition to a competitive PhD funding package
- Open to top applicants entering the PhD program in Fall 2026
- Designed to recruit students with exceptional academic and research potential from leading institutions
- Engage with world-renowned faculty in hydrology, water resources, climate science, and atmospheric dynamics
- Located in Tucson, Arizona – a global hub for earth and environmental sciences

Eligibility

- Strong academic background in hydrology, geology, environmental science, engineering, or related fields
- Demonstrated research potential and academic excellence in surface or subsurface hydrology, water resources, and/or connections with other parts of the water cycle
- Academic preparation from top-tier graduate-level institutions (PhD applicants must have completed a master's degree to be eligible)
- U.S. and international applicants welcome

How to Apply for the Fellowship

Applicants should tailor their research statement when they apply to the PhD program towards the ambitions and goals of the fellowship to be considered. Students who wish to be considered for this fellowship should include the following in their statement of purpose: "I wish to be considered for the Davis-Fitzwater Fellowship in Hydrology."

Deadline - January 15, 2026
