25th Biennial Conference
CMWR

Computational **M**ethods in **W**ater **R**esources
Sep. 30 - Oct. 3, 2024 Tucson, Arizona

The CMWR Conference was created in 1976 and has since been held biennially alternating between locations in North America and Europe. CMWR is dedicated to nurturing and promoting cutting-edge interdisciplinary research on quantitative forecasting of hydrological processes, with a special emphasis on mathematical, computational, statistical, and machine learning methods.

CONFERENCE CHAIR
Bo Guo (University of Arizona)

ORGANIZING COMMITTEE (University of Arizona)
Bo Guo (Chair), Laura Condon, Ty Ferré, Hoshin Gupta, Beth Tellman, Peter Troch

CMWR COMMITTEE
Adam Szymkiewicz (Gdańsk University of Technology)
Daniel Tartakovsky (Stanford University)
Jean-Raynald de Dreuzy (University of Rennes)
